

CONVENIENCE MEETS COMFORT.

Vending Massage Chair & Foot Massager

Improved Blood
Circulation

Stress
Relief

Better Sleep
Quality

A vending massage chair and foot massager are automated devices designed to provide quick, convenient relaxation and pain relief. The vending massage chair is coin or card-operated, typically found in public spaces like malls and airports, offering full-body massages that target areas such as the back, neck, and shoulders with techniques like kneading, rolling, and tapping. It allows users to adjust the intensity and duration for a personalized experience.

TABLE OF CONTENT

VENDING MESSAGE CHAIR INTRODUCTION	03 - 05
VENDING MESSAGE CHAIR	06 - 09
HOME-USE MESSAGE CHAIR	10 - 32
FOOT MASSAGER	33 - 39

Convenience Meets Comfort.

Product service

To use the IOT smart payment module group to reduce risks for unwatched chairs and more effectively manage and analyze marketable strategies for vending massage chairs

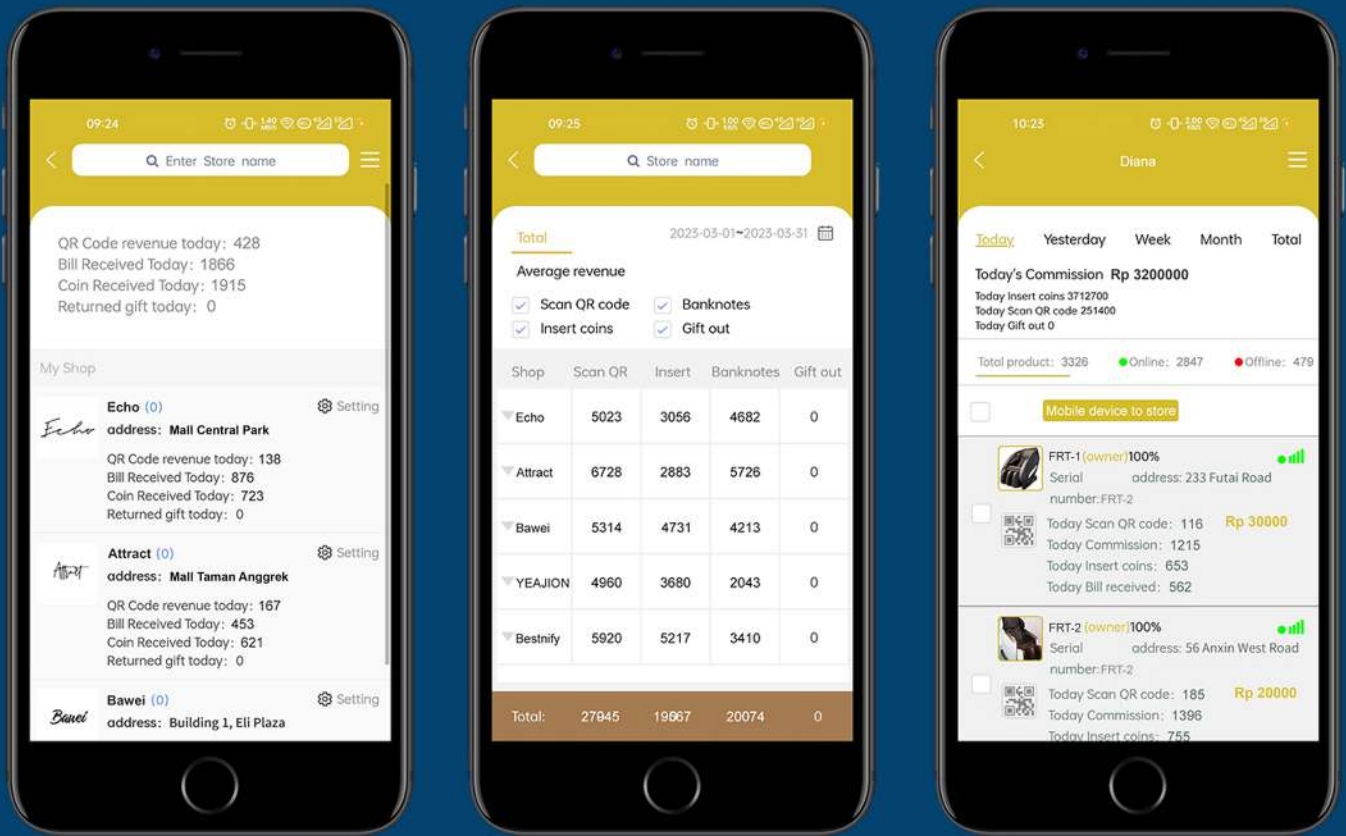

Suggested place to put

All public places are suitable for commercial massage chairs.

Mobile Phone Operation

The system is well-designed by role classification. Meet all needs of different roles.

Customers can choose the massage chair they like to install our IOT smart payment module group.

Leading IOT Smart Payment Module Group

Ferretto sharing massage chair is the world's leading unwatched vending massage chair platform. Businesses can directly inspect the revenue of massage chairs through the mobile phones, and also can effectively manage and analyze the local marketable strategies of vending massage chairs according to different launch area.

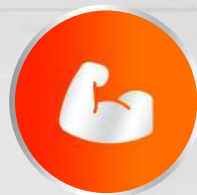

The leading IOT smart payment module group is a multifunctional all-in-one anti-theft module designed for bills, coins, credit cards, and QR code based on the concept of "safe box".
